

DAREBIN BOUNCES BACK

The National Motor Vehicle Theft Reduction Council (NMVTRC) today applauded Darebin City Council's *Operation Bounce Back* campaign to prevent vehicle theft and immobilise older vehicles.

The campaign is one of fourteen projects being funded across Australia over the next three months by the NMVTRC's partnership with local crime prevention partners.

The NMVTRC's Executive Director, Ray Carroll, said, "*Operation Bounce Back* is a great example of how local government and police can work together to tackle a major crime issue. Importantly, the project really confronts the key issue that drives local statistics – the high number of older, unsecured cars that are vulnerable to theft.

"Around 3 in 5 cars stolen in Darebin are older sedans: the family runabout or your teenager's first car. Many of these thefts could have been avoided had these cars been protected by an engine immobiliser."

Darebin's *Operation Bounce Back* program is giving away one-hundred Australian Standards approved engine immobilisers, fully-installed, to owners of older vehicles and those who have been a victim of vehicle theft. Information days where residents can learn more about car theft prevention will be held over the next couple of months, kicking off with free hot drinks and muffins for commuters at Preston train station today, 8-9am. This will be followed by a display at Northland Shopping Centre on 24 August.

"Most car owners do not consider the inconveniences to family, work and social lives that having a car stolen can cause. Unfortunately in the last year over 600 drivers of older cars in Darebin found out that both the financial and emotional impact can be quite significant," Mr Carroll said.

Motorists that miss out on a free immobiliser can still have an Australian Standards approved immobiliser installed for around \$200 at a participating installer.

The NMVTRC is an initiative of all Australian governments and the insurance industry.

MOTOR VEHICLE THEFT IN THE CITY OF DAREBIN

- 724 motor vehicles were reported stolen in 2008 in the City of Darebin.
- Older cars amounted for 62 per cent of stolen vehicles manufactured prior to 1992.
- Vehicles manufactured ten or more years ago tend to lack adequate security and as a result account for more thefts. The most popular theft targets in the City of Darebin are:
 - Holden Commodore (1986 to 1989)
 - Toyota Camry (1989 to 1992)
 - Ford Falcon (1988 to 1991)
- The best protection against short-term theft for older vehicles is to fit an Australian Standards approved electronic engine immobiliser.
- Australian Standards approved immobilisers are available through the NMVTRC's Immobilise Now! program for around \$200.
- The NMVTRC is funding a total of twenty-five *Operation Bounce Back* grant packages across Australia in 2009.
